Notes

Notes from original microfiche

Other information included: number of slave houses provided by enslaver.

Notes regarding the transcription

Comments regarding an entry are shown as footnotes at the bottom of the corresponding page.

Page and cell numbers for each line refer to the location of the line in the original document. "Cell" refers to the left/right side of the page and the line number.

The column "No. of slave houses" was originally recorded differently for District 1 compared to Districts 2-5. District 1 had the number recorded in the first line of the household, whereas Districts 2-5 had the number recorded in the last line of the household. In this transcription, we show the number of houses in the first line of the household for all districts for consistency and ease of interpretation.

The Fourth District (Rockville)

The Fourth District appears to have some anomalies. It is not clear if the problems lie in the original record, the microfiche copy, or both.

1. The original page 1 does not begin with a name on the first line, which implies it is continued from another page and therefore is not the first page.
2. The original page 14 out of 20 is missing from the microfiche.
3. The dates recorded on the pages are not consecutive (see table below).

¹⁵⁶ John Higgins in Hurley (1998).

¹⁵⁷ Hurley (1998) has two instances of George Peters. For one, he also notes, "This, and the next family, may be part of the present-day families who spell the surname as Peter."

¹⁵⁸ William Campbell in Hurley (1998).

¹⁵⁹ Hurley (1998) has Ursula Williard and notes, "There was one Ursula Wilcoxon, aged 38, listed in the 1850 census for Rockville District, which could be this individual. The surname could, of course, be the more common Willard."
